

Hello.

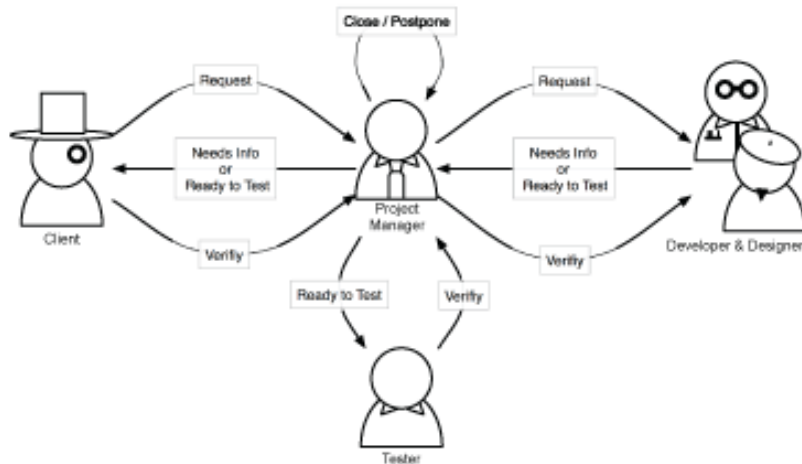

My name is \_\_\_\_\_

process

process \$op hook\_magic() process?

## A DRUPAL PROCESS

\*Asterisks denote a client deliverable  
 Shaded items denote major milestones

(hey - that slide had a lot on it)

before we understand that

process

context

(pressures, people, and projects)

### A DRUPAL PROCESS

\*Asterisks denote a client deliverable  
 Shaded items denote major milestones

(yes – we will cover that in detail)

reason

context

understand, evaluate, improve

so, here's that context:

I'm Drew Gorton

1996

website

changed my life

(although I didn't know it at the time)

1998

web stuff @ insurance company

1999

. com programmer

2001

**GORTON • STUDIOS**

and we create websites

**GORTON  
STUDIOS  
WEBSITES THAT WORK**

We take projects that start with:

**Client:** We have an idea about our website.

**Us:** Great, we do websites. What's your idea?

**Client:** Well, we want an X.

**Us:** Really? Why?

**Client:** Well, because we want to do Y.

**Us:** Oh, well, that probably means we ought to build Z.

**Client:** Z! That's a great idea! Let's do it!

Solve for Z,

Where  $X$  = jargon (e.g. Web 2.0)

and  $Y$  = increase sales, or  
reach new audiences, or  
provide better service, or  
automate processes, or...

all of the above

so all day, every day, for 10+ years,  
I've been building websites.

context

Language of 'clients'

# Spectrum of web deliverables

You = different context?

client | designer | developer | project  
manager

or someone else entirely

process still applies

Understand, Evaluate, Improve

lots of projects

lots of opportunities to learn

2004

(we think)

# Drupal

4.4

# Drupal

a few 4.5

# Drupal

several 4.6

# Drupal

bunch of 4.7

(that was 2006)

# Drupal

became what we do

**Drupal WORKS**

**GORTON**

**GORTON  STUDIOS**

**WEBSITES THAT WORK**

**Drupal WORKS**

Three Axioms:

ONE

**!Drupal ≠ Bad Website**

TWO

Drupal ≠ Good Website

THREE

Drupal + Good\*(Idea + Plan + Execution)

is better than

!Drupal + Good\*(Idea + Plan + Execution)

which I don't care to debate

because it's an Axiom.

And it's True.

(we will have about 10 minutes for questions and discussion at the end)

(and I'd like to see this conversation continue)

## AXIOM THREE

Drupal + Good\*(Idea + Plan + Execution)

>

!Drupal + Good\*(Idea + Plan + Execution)

deconstructed

Drupal = Free

<http://drupal.org/project/drupal>

Good Idea = Free  
(but not downloadable)

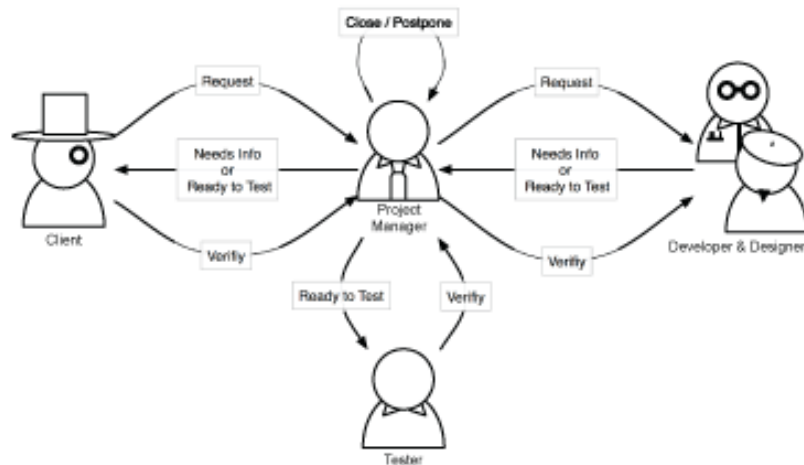

Good Plan + Good Execution =

process

which brings us back to

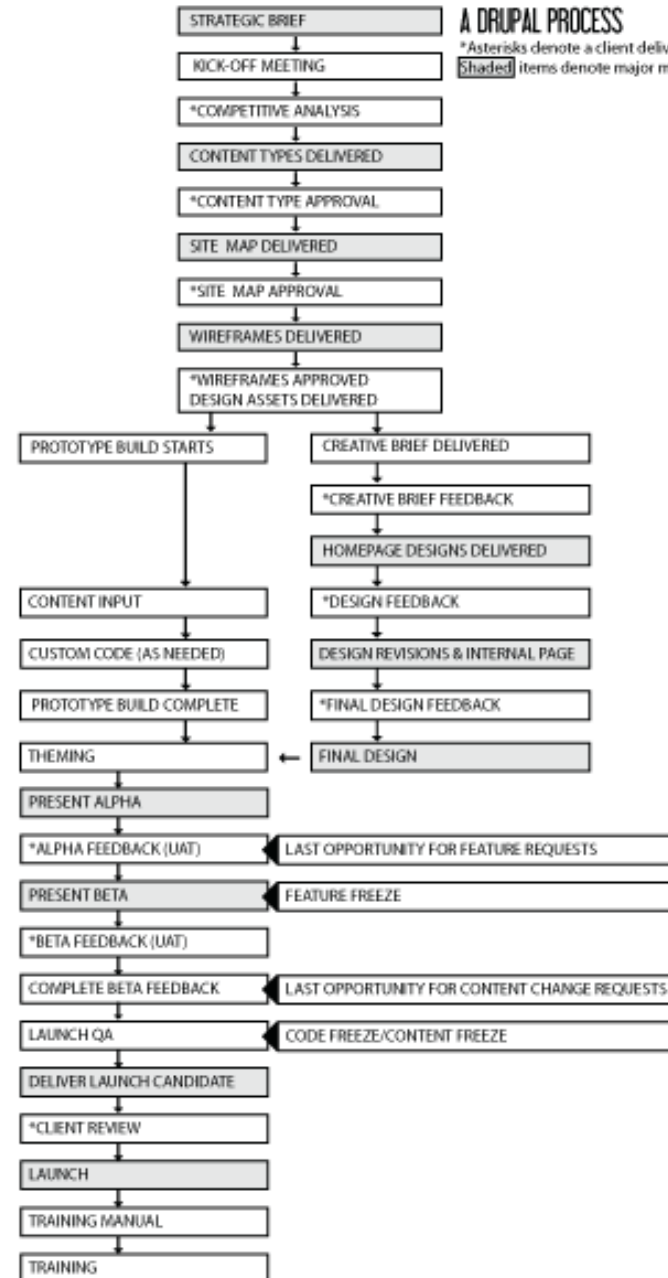

## A DRUPAL PROCESS

\*Asterisks denote a client deliverable  
 Shaded items denote major milestones

Drupal Process = Web Process

Plan

Design

Develop

Verify

Train

Support

“Skip Intro”

Long-Term Degradation

Boxy / Clunky

Long-Term Disinterest

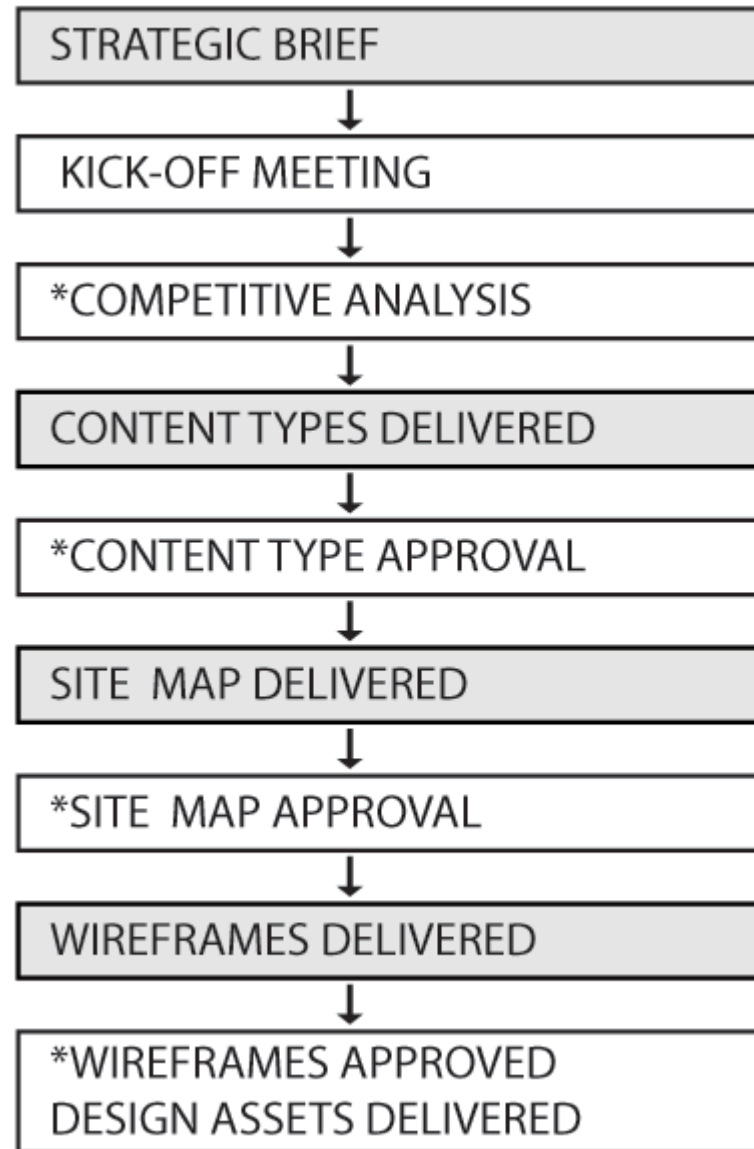

Educate.

Organize.

Advocate.

**Wellstone Action!**

# Strategic Brief

By: Account Exec

For: All

Approved By: Client Lead

- Introduce the organization
- Big picture goals
- Ongoing reference

“Wellstone Action is a national center for training and leadership development for the progressive movement. Founded in January 2003, Wellstone Action’s mission is to honor the legacy of Paul and Sheila Wellstone by continuing their work through training, educating, mobilizing and organizing a network of progressive individuals and organizations. It's audiences include members, program alumni, people trained by the organization, donors and potential donors, individuals seeking training on grassroots organizing, advocates for specific causes and people who identify with the Progressive Movement and its causes...”

# Kick-Off Meeting

Led By:  
Project Manager

Attended By:  
All Client Stakeholders,  
Account Exec,  
Wireframe Lead (UX person)

Optionally Attended By:  
Prototype Lead (Developer/Configurer),  
Creative Lead (Designer/UX person),  
Verification Lear (Detail Person)

- Introduce teams
- Build anticipation/excitement
- Recap the project goals
- Encourage client stakeholders to talk
- Project Team should talk no more than 20 - 25% of the time.
- Success:
  - Dialog among client stakeholders
  - Agreement on priorities
  - Discover new wrinkles
  - Start to build trust

# Competitive Analysis

[http://en.wikipedia.org/wiki/Competitor\\_analysis](http://en.wikipedia.org/wiki/Competitor_analysis)

Done By:  
All Client Stakeholders

# Content Types

Who: PM or Wireframer

Approved By: Client PM

- Ingredients for site
- CCK types

## **Program**

A parent page for any training event.

Title, Header image (optional), Additional images (display in gallery form), Body, Related Audiences, Org (Action vs. Action Fund, optional), Related Content (audience, toolkit), Featured Alumni, Keyword tagging

## **Training Event**

Appropriate for all training events and any other events you may have. Time will appear on single-day events, but not on multi-day.

Title, Location (not required / mapped if available), Date, Time, Featured Trainer(s), Org (Action vs. Action Fund, optional), Related Content (audience, program, blogs), Sign-Up URL (multiple)

## **Alum Profile**

A way to highlight specific alumni. They will be random on refresh for each program.

Associated program, Picture, Pull quote (appears on teaser view), Story (appears when Read more is clicked)

## **Audience**

A way to view content by “self-identifying” audiences, including: Alumni, Campaign Workers, Candidates, Citizen Activists,

...

(show PDF for more)

Educate. Organize.  
Advocate.  
**Wellstone Action!**

## Main Audience

Program Alumni and people interested in your programs & resources. They vary widely in age and economic bracket, but they share an interest in progressive causes. Put simply, your audience wants to make people's lives better.

## Competition

None. Must be a pretty good niche!

## What's Unique?

You train progressives in a way that unites all three aspects of politics—policy, politics, and organizing.

## Key Objectives

- (1) Give visitors the tools to make a difference
- (2) Encourage involvement in Wellstone Action.
- (3) Convey a strong identity that honors Wellstone's legacy, but has a life and character of its own.

## Design Direction

Progressive,  
bold,  
Clean & Clear

## Needs

The site needs to be flexible—ready for regular updates and successive growth.

This creative brief is a summary of your site's goals—who it should speak to and how it should look.

This language will provide our aesthetic roadmap, ensuring that we are all on the same page in terms of design goals.
